Dear Joshua,

As you know, I'll be making my visit to Madison next week, on the 26th and 27th. Dr. Mueller some time ago asked me to tell him what places and people I'd like to see so he could make arrangements. I'm writing him now to say that I'd like to see something of the McArdle, the Dept. of Genetics where you are, and the Dept. of Zoology. I felt I should not be too specific or demanding, but I hope he'll leave plenty of time for me to visit with you and with Hans Ris.

Mueller had ~~so~~ also offered to get me a room. I remember and appreciate the offer you and Esther make to have me stay over with you, but I think I'd better let him get me the room. I'll be arriving on the 8:40 PM plane on the 25th and will leave on the 7:30 AM plane on the 28th. I feel that three nights would really be an imposition on Esther unless she has full time maid service.

Will see you both next week. Do you need more of our special capillary tubing? I'll bring some along just in case.

Bob
